

Hi Chris,

Further to your letter of 10 July 2018, the Council has re-considered and updated the HRA Screening Report for the Bramham Neighbourhood Plan. Please find attached an updated HRA Screening which takes account of the Judgement as well as the 2017 HRA Screening Report. The screening has been prepared in consultation with Natural England as the Statutory Consultee.

The HRA Screening Update concludes that no mitigation measures were included in the 2017 screening and that the Bramham NP will not give rise to any Likely Significant Effects, therefore is not caught by the Judgement and is considered legally-compliant.

Best wishes,
Abbie
